Subject:	RE: schedule yet for planting of Lot D?

Hi Amy,
Hope you are well. The lot will not be landscaped until the improvements are completed (sewer, etc) because it would go in and then have to be torn out. At this time, as we are still obtaining approval and permits, it is very difficult, if not impossible, to give an estimate. We continue to work diligently with the City and County to get approvals to begin all improvements.

Subject: schedule yet for planting of Lot D?

Hi Lili-

I know that you had mentioned that the brush clearance of Lot D was per LA County, thank you for that information. However, do you happen to have a schedule figured yet regarding when this lot will be landscaped? Thank you.
